MobileMapper CX

Non-compatibility with ArcPad 8

Product concerned

Product Name: **MobileMapper CX**

Product Family: **Survey / GIS**

1. PURPOSE

Announcement: new ArcPad version 8 is no more compatible with MobileMapper CX

2. DESCRIPTION

ESRI is releasing a new ArcPad version 8. This version is not compatible with Windows CE devices, thus will not run on MobileMapper CX.

As a consequence, MobileMapper CX with ArcPad bundles (PN 990586-04 and 990586-05) will concern ArcPad 7.1 (7.1.1 included) version and registration codes delivered with MobileMapper CX will be compatible with ArcPad 7.1, but not with ArcPad 8.0.

ESRI is supporting ArcPad 7.1 on their web site and there is a specific location allowing download of ArcPad 7.1 version instead of ArcPad 8:

<http://support.esri.com/index.cfm?fa=downloads.patchesServicePacks.viewPatch&PID=26&MetalD=1396>

3. CUSTOMER NOTIFICATION

Dealers will be notified about this update via the Product News / Sales Info / Dealer Web Site.
