SUBJECT: SDIO WiFi CARD  
MOBILEMAPPER 100, PROMARK 100 AND PROMARK 200

- 1) Confirm that you are using the SpecTec SDW-821 WiFi 802.11b/802.11g 54Mbps SD SDIO Wireless LAN Network Card
- 2) It is not necessary to use the CD that comes with the SDIO card.
- 3) Before inserting card into the handheld device, copy the Ashtech driver into the handheld and double click on the file. This will install the necessary drivers onto the handheld.
  - a. Driver can be downloaded from the Ashtech FTP site in either of the following folders:
    - i. [/Land Survey/ProMark 100\\_200/Software/WiFi Driver SpecTec SDW 821](#)
    - ii. [/Mobile Mapping/MM100/Software/WiFi Driver SpecTec SDW 821](#)
- 4) Insert WiFi card into device and it should be recognized. There will now be a WiFi option for configuring parameters for local WAN.
