## **RINEX Converter v4.5.6 release**

A new version of the standalone RINEX Converter software tool is now available. Software version **4.5** (4.5.6) provides the following enhancements (compared to version 4.3):

- Support of BEIDOU satellites in RINEX version 3.02
- Support of Trimble T02 raw data files
- Support of new SNR mapping
- Support of new raw-data flagging compatible with GNSS FW V26
- Single setup for Windows XP/Vista/7/8

This new firmware and software are now available – together with release notes – on the Spectra Precision web site under the *Support* section:

- <http://www.spectraprecision.com/support/rinex-converter/>
