New Release of Spectra Precision Survey Office

Spectra Precision Survey Office v3.61

Version 3.61 is now available for Spectra Precision Survey Office (SPSO). The new version can be downloaded and installed via the Check for Updates command in SPSO or from the [Spectra Precision Website](#). SPSO v3.61 is comprised of new features including:

- Multiple record definitions for custom leveling importers
- New Layer Editor
- Add symbol for list attribute
- Assign layers and labels to points in line and polygon features
- Feature codes are preserved when feature lines are deleted
- Automatic update of Coordinate System Manager
- VRS processing mode
- Enhancements to CAD grips
- Group layers

For more details, see online [Release Notes](#).
