

## Datum Grids Installation Instructions

FAST Survey supports the following datum grids:

- Belgium - Lb72
- France - GR3DF97A
- Greece - GGRS87
- Holland - RD2000
- UK -OSTN2002
- USA – Nadcon

The instructions to install one of these grids are the following:

- 1- On the FAST Survey CD, go to **\ProMark500-ProFlex500-ZMax\Grids** to access the Grids folder containing all the datum grids available for FAST Survey.
- 2- Connect your Data Collector to your PC, and establish a Microsoft ActiveSync connection.
- 3- Copy the files (or a folder if Nadcon) that are in your grid folder to the SurvStar folder on your Data Collector, which is normally located in **\MyDevice\FAST Survey** (Mobile Mapper CX) or **\C\_Drive** (Allegro CX)

### Examples:

- 1- To install the Belgium grid on a Mobile Mapper CX, copy these two files: **Belgium72\_dEast.grd** and **Belgium72\_dNorth.grd** to the **\MyDevice\FAST Survey\SurvStar**.
- 2- To install the Nadcon grids on a Mobile Mapper CX, copy the **NADConv** folder to **\MyDevice\FAST Survey\SurvStar**.
