## Z-Max.Net

## MD00 vs MD02

### Product concerned

Product Names:

**Z-Max.Net**

Product Family:

**Land Survey**

### 1. PURPOSE

This Z-Max.Net product news provide status & recommendations on Z-Max.Net firmware versions.

### 2. FIRMWARE VERSION STATUS & RECOMMENDATIONS

**MD00** : initial Z-Max.Net firmware release. It was reported limitations when operating in GPRS FKP network. This is the version to be used when operating in UHF data communication with PacificCrest radios.

**MD02** : improved data communication when operating in GPRS FKP networks. It has been reported that PacificCrest radio Channel tables are erased when uploading MD02. This is the recommended version to use if you are operating in GPRS networks.

This version shall not be used when operating with a UHF PacificCrest.

### 3. CUSTOMER NOTIFICATION

All RSMs will receive this Product Marketing Update for information on their channels / customers.
